

KETAN AGRAWAL

Android Developer | Java & Kotlin Enthusiast

Mauranipur, UP (284204) | (+91) 9559532457 | ketanagrawal459@gmail.com | [LINKEDIN](#) | [GITHUB](#)

EDUCATION

Master's Computer Application, Lovely Professional University, Punjab	Aug 2023 – PRESENT
Bachelor's Computer Application, GLA University, Mathura	Aug 2019 - May 2022

EXPERIENCE

DESTEK INFOSOLUTIONS Pvt. Ltd.

Executive Mobile Development

March 2024 – December 2024

- Developed a full-featured food delivery app using Java, with features such as items catalog, cart management using **Room Database**, order tracking and work on many other exciting projects.
- Integrated **RESTful APIs** to handle real-time order processing, order tracking and restaurant data, ensuring smooth communication between the app and the server.
- Integrated **Glide** for efficient image loading, enhancing app performance.
- Implemented network operations using **Retrofit**.
- Configured **Firebase** to enable **real-time push notifications** for order updates, improving customer engagement.
- Embedded **Google Maps** for accurate delivery address selection improving the overall user experience.
- Collaborated with **cross-functional teams**, including UX/UI designers and backend developers, to deliver an end-to-end mobile solution.
- **Published** the application on **Google Play Store**, ensuring full compliance with play store guidelines.

Android Developer Intern

July 2023 – February 2024

- Contributed to the development of new features in an Android application using Java.
- Integrated third-party libraries like **Retrofit**, **Glide**, and **Firebase** to streamline app functionality.
- Worked closely with **cross-functional teams** to improve app design and functionality.

SKILLS

-
- **PROGRAMMING LANGUAGES:** Java, Kotlin, C++, DSA
 - **PLATFORMS:** Android, Firebase, RESTful APIs, Google Maps
 - **LIBRARIES & FRAMEWORKS:** Retrofit, Glide, Dagger2, Hilt
 - **DATABASES:** Firebase, SQLite, Room
 - **TOOLS & SOFTWARE:** Android Studio, Postman
 - **VERSION CONTROL:** Git, GitHub
 - **OTHERS:** Xml, Material Design, Google Play Store

PROJECTS

GFS Services (Get Fixed Soon Services)

June 2021

- It is an application that provides workers at your home who have difficulties to contact with workers for home appliances services.
- It provides work for unemployment workers.
- Utilized **Java** for backend logic, **XML** for designing responsive user interfaces, and **Firebase** for real-time database management and authentication.
- Tools used in this project include **Android Studio**.
- **GitHub Link:** https://github.com/ketan1705/GFS_Services.git

Weather Forecast App

- **Developed a weather forecast mobile app** using **Kotlin** and **Android SDK** to display real-time weather data.
- Implemented **Retrofit** to integrate the **Open Weather API**, ensuring seamless retrieval of real-time and forecast weather data, enhancing the app's functionality and user experience.
- Utilized **Java** for backend logic, **XML** for designing responsive user interfaces, and **Firebase** for real-time database management and authentication.
- Tools used in this project include **Android Studio**.
- **GitHub Link:** <https://github.com/ketan1705/WeatherApp>
